

Sahil Hode

Software Engineer / AI Agent Developer

 sahilhode67@gmail.com

 +91 8652601566

 <https://sahil-hode-portfolio.vercel.app>

Full-Stack Software Engineer and AI Agent Developer focused on building scalable web and AI-powered applications. Skilled in Next.js, React.js, Node.js, Express.js, FastAPI, MongoDB, PostgreSQL, Docker, CI/CD, Linux, and NGINX. Experienced with Python, LangChain, LangGraph, RAG pipelines, and workflow automation using n8n to develop production-ready SaaS and intelligent automation systems.

Experience

- Full Stack Developer

Aug 2025 - Jan 2026

 - Developed and deployed scalable MERN stack applications and analytics dashboards, improving user engagement tracking and optimizing API performance for faster, more responsive user experiences.
 - Implemented CI/CD automation using GitHub Actions and cloud deployment workflows, reducing manual deployment effort and improving development reliability and efficiency.
- Software Developer Engineer & LLM Application Developer

Jan 2026 - Apr 2026

 - Contributed to the development of scalable web and mobile applications for client projects including AuditVeda, working on backend systems, API integration, and React Native application features.
 - Assisted with deployment workflows, server management, and basic DevOps practices using GitHub, Docker, CI/CD, and cloud-based development environments to improve project delivery and stability.

Education

- High School

2024
- Sahyog College, Kavikulguru Kalidas University

2024-2027

 - Bachelor of Computer Application – Thane, Maharashtra
 - Coursework focuses on programming fundamentals, data structures, database, and web development.
 - Actively involved in hackathons, technical events, and project-based learning to strengthen real-world problem-solving skills.

Skills

- JavaScript
- TypeScript
- React.js/Next.js
- Flutter
- Tailwind CSS
- Dart
- Python

- Node.js/Bun
- Express.js/Nest.js
- MongoDB
- MySQL/PostgreSQL
- Langchain/Langgraph
- RAG & LLM Models
- FastAPI

- Git & Github
- Github Actions
- Gitlab
- Docker
- CI/CD Pipelines
- Linux/Ubuntu
- Vercel/Render

- NGINX
- WebSockets
- REST APIs
- VSCode
- Leadership
- Communication
- Collaboration

Projects

- **Campus++** — AI-powered edtech analytics platform with 3D mentor integration, AR/VR learning insights, and smart student performance recommendations using React, Node.js, and Three.js.
- **Salon Booking App** — Full-stack salon appointment SaaS with real-time booking, stylist management, business analytics, and automated customer engagement workflows.
